PROJECT DESIGN PHASE-II REQUIREMENT ANALYSIS

Performance Analysis:

1. Response

- 90% for user interactions ,
- response time < 2secs,
- timeout message should be shown after 15secs

2. Throughput

3. Concurrenv

Functional Requirements:

1.Size =small and compact

2.Cost= should be of reasonable cost

3.Weight =less than 50grams

Non-Functional Requirements:

1.Security

2.Maintainability

3.Portabilitv

Business Requirements

To Submit the water availability

To submit the fodder and cattle details

To submit the progess of sown area
